

Recommended Adobe Reader Settings

Under Adobe, Edit, Preferences:

IN THE "3D & Multimedia" category

"Preferred Renderer"

select "Software" instead of "DirectX"

+ uncheck "Enable hardware rendering for legacy video cards..."

IN THE "Accessibility" category

select "Always use Zoom Setting" 100%.

IN THE "Reading" category

uncheck "Confirm before tagging documents".

for "Page vs. Document"

select "For large docs, only read the currently visible pages."

for "Minimum number of pages in a large document",

make the number 2 or 5 works for me.

*For Adobe Reader 10, in the "General" category,

uncheck "Enable Protected Mode at startup".

*For Adobe 11, in the "Security (Enhanced)" category,

uncheck "Enable Protected Mode at startup".

CLICK OK / tab to OK & hit Enter. Then Restart Adobe AND your AT.
